You will not want to miss this!!

The National Council of Teachers of Mathematics and the National Association for the Education of Young Children affirm that high-quality, challenging, and accessible mathematics education for three-to-six-year-old children is a vital foundation for future mathematics learning. In every early childhood setting, children should experience effective, research-based curriculum and teaching practices. Such high-quality practice in turn requires policies, organizational supports, and adequate resources that enable teachers to do this challenging and important work.

—From the NAEYC Position Statement on Early Childhood Mathematics: Promoting Good Beginnings

Workshop is appropriate for preschool teachers and in-home child care providers. It is limited to 30 participants. To register, please call the Extension Office, **385-8126**. Better call today!
